

Pharmtech – Technologies for the Pharmaceutical Industry

22-25 November 2011

Crocus Expo International Exhibition Centre

About the Exhibition

- The 13th international Pharmtech exhibition was held 22-25 November 2011 in Moscow at the Crocus Expo International Exhibition Centre.
- The event was organised by ITE Group, which holds a leading position in the Russian exhibition market.
- Pharmtech is currently the only show in Russia and the CIS dedicated to pharmaceutical production: substances, raw materials, equipment, packaging, turnkey projects, clinical trials and lab equipment. Pharmtech presents the entire process of pharmaceutical production, from the development of substances and quality control of raw materials to the transportation and storage of medicines and recruitment of staff in Russia and the CIS.

Exhibition support:

- Ministry of Health and Social Development of the Russian Federation
- Ministry of Industry and Trade of the Russian Federation,
- Ministry of Economic Development of the Russian Federation,
- Committee for Social Policy and Health of the Federation Council of Russia,
- Ministry of Health of the Moscow Region
- Association of Russian Pharmaceutical Manufacturers.

The Pharmtech 2011 gala opening ceremony was attended by:

Participation at Pharmtech 2011:

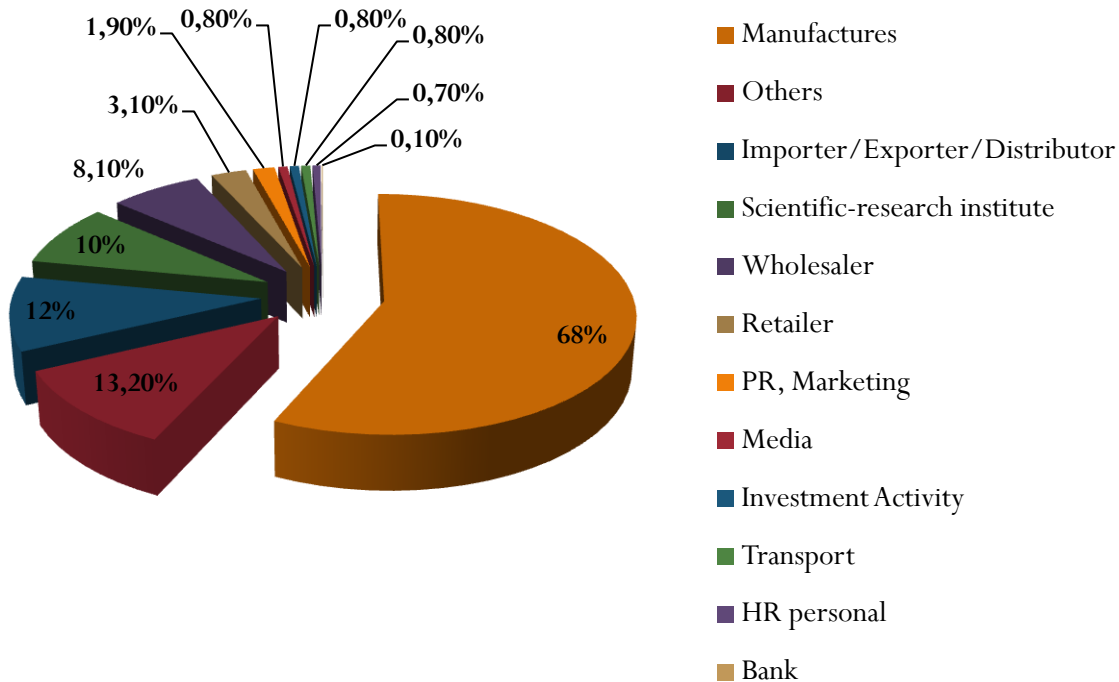

- **293** companies from **20** countries
- Exhibition area: **5148 m²**
- Germany and China presented national stands

Exhibition Visitors

4161 specialists from the pharmaceutical industry from Russia and **34** other countries visited Pharmtech 2011.

Visitor breakdown by business area

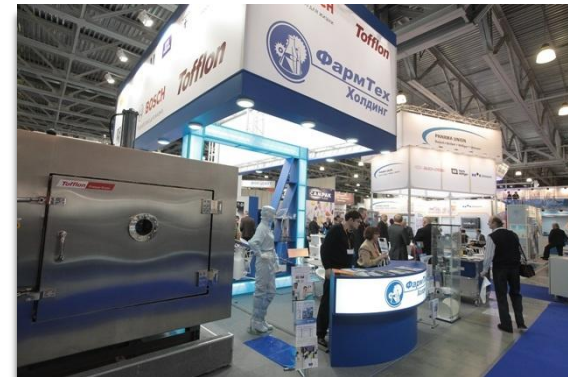

90.6% of Pharmtech 2011 visitors were representatives from Russian companies. The share of visitors from abroad totalled 9.4%.

Exhibitor s' innovative solutions

For the first time, Pharmtech focused the attention of industry professionals on innovative pharmaceutical production solutions, which were presented in a special section entitled “Company Innovations”.

The companies showcasing their innovations included Rolstech, PharmTech Holding, Extract Technology (ETL), Silverson Machines Ltd, Russell Finex Ltd, Norden Machinery AB, MAR and others.

Pharmtechprom Forum

The 6th international Pharmtech forum was held 23-24 November; the forum was attended by representatives from chemical and pharmaceutical companies from Russia and the CIS, leading European producers of raw materials, packaging and equipment as well as industry experts and analysts.

This year the Forum presented a new session “Process technologies for chemistry and pharmaceuticals”, which accompanied the forum’s traditional sessions “Excipients and raw materials for pharmaceutical production”, “Equipment and technologies for pharmaceutical production” and “Packaging materials”. The new session examined the history and current status of the production of active pharmaceutical ingredients (API) in the Russian Federation, the experience of API production, development plans, equipment and technologies for chemical and thermal processes in the pharmaceutical industry.

In 2011, 450 professionals from the pharmaceutical industry attended the forum.

Pharmtech 2011 – Exhibitor events and seminars

The following companies conducted seminars at the exhibition:

SokTrade

PharmTech Holding

Galachem

Chemmed

IMCD

PALL

International Health Foresight Project

The gala awards ceremony was held on 22 November within the Pharmtech exhibition, for the first winners of the international Health Foresight project, which was launched in September 2011.

The Association of Russian Pharmaceutical Manufacturers (ARPM), the Pharmtech exhibition's permanent partner, won the category "Industry recognition" – the pharmaceutical industry's professional organisation.
