

## PRESENTATION ABSTRACT

**Presentation topic: Innojet Herbert Huettlin innovative equipment for granulation and film coating. Services on modification of present fluid bed equipment of other manufacturers.**

**Speaker:**

Olga Panteleeva, regional sales executive

**Company:**

Innojet Herbert Huettlin, Germany

**Presentation abstract:**

- Features of Innojet Herbert Huettlin innovative granulation equipment type Ventilus to ensure shorter process time (for 25-50%), minimum product losses (< 1%) and wider process abilities.
- Fundamental differences between Innojet Herbert Huettlin innovative film coaters type AirCoter (for micro tablets, tablets of various forms, sizes and hardness and hard and soft gelatine capsules) and traditional coaters to ensure incomparable layer quality and drastically shorter process time.
- Modification options for existing fluid bed dryers-granulators of other manufacturers with help of Innojet Herbert Huettlin Core Components.
