

To the Organisers and Participants of International Specialised Exhibition "Pharmtech"

Dear Organisers and Participants of the exhibition!

On behalf of the Federal Service for Supervision in the Field of Healthcare and Social Development and on my own behalf, I would like to welcome you to Pharmtech 2009.

"Pharmtech" international exhibition has not only become a traditional event for Russian pharmaceutical sector, but has been recognized by representatives of the world pharmaceutical industry. Due to excellent organisation of scientific events and professional presentation of information at the exhibition, representatives of pharmaceutical companies have a chance to get acquainted with achievements of the Russian science and new trends of the global market and discuss opportunities and prospects of cooperation.

In complicated economic conditions Pharmtech exhibition is an excellent ground for interaction of all participants of the pharmaceutical market and identification of further development trends of Russian pharmaceutical industry.

I am confident that agreements reached by participants of this event will be efficient and long-term, and alive interaction, dialogues and exchange of opinions will provide all participants with an opportunity not just to discuss their positions on the most important issues of the industry, but also to establish strong friendly relations.

I wish everybody optimism, prosperity, productive work and implementation of all plans!

Head of the Federal Service for Supervision  
in the Field of Healthcare and Social Development,  
Professor, Honoured Doctor of the RF  
N. V. Yurgel
